The Virginia Association of Science Teachers (VAST)

VAST is a professional organization of and for science educators. For more than 65 years, VAST has held its annual Professional Development Institute in key regions of the state. This event provides high-quality professional development to Virginia's science educators.

Who Should Attend?

Classroom science teachers (Pre-K-12), science specialists, science coaches, department chairs, principals, school division science leaders, home school educators, pre-service science teachers, college/university science teacher educators, and informal science educators.

Conference Location

The 2017 VAST PDI will be held at the Hotel Roanoke and Conference Center. For more information, visit www.VAST.org, "annual PDI" page.

What is Included With Your Conference Registration?

Full conference registration includes:

- Access to afternoon preconference workshops (Thursday) with additional \$5.00 registration fee per course.
- Access to all-day preconference short courses (Thursday) with additional \$125.00 registration fee per course.
- Admittance with your badge to the exhibit hall each day with a special event on Thursday night.
- Continental Breakfast on Friday and Saturday
- Three general sessions, auction and dance on Friday night.
- All concurrent sessions and commercial workshops (Friday, and Saturday).

Ticketed Events

For an additional fee, registrants can purchase tickets for the Preconference short courses and workshops, onsite lunches, and the annual VAST Awards Dinner.

Thursday November 16, 2017
Donna R. Sterling Institute
Dinah Zike Preconference Short Courses
8:00 am to 3:00 pm

Thursday Preconference Short Course Registration Fee

\$125.00/person

Preregistration required by October 30. No onsite registration for short courses.

Two Concurrent Sessions (Elementary or Secondary)

Preconference Registration Price includes book, lunch, and access to Short Courses as well as Thursday night speaker!

8:00 a.m. - 3:00 p.m.

Short Course 1: Strengthening the 4 C's using 3-D Interactive Organizers for Elementary Grades (K-5)

Short Course 2: Strengthening the 4 C's using 3-D Interactive Organizers for Middle/High School (6-12)

Participants will make three-dimensional interactive graphic organizers that can be used to teach Virginia science curriculum standards. A focus of attention will be on vocabulary development, as that is a major hurdle for understanding science concepts for struggling (including ELL) learners. The activities presented are appropriate for use before, during, and after science instruction, and they are appropriate for recording basic concepts, observations, investigations, experiments, and assessment. Both independent graphic organizers (manipulatives) and dependent graphic organizers (note-booking strategies) will be featured. Teachers will leave the session with inexpensive activities that can be used immediately with their students. Each elementary teacher will receive a copy of Dinah Zike's *Big Book of Science*. Each secondary teacher will receive a copy of *Notebook Foldables for Spirals, Binders, and Composition Books*.

Incredible opportunity at an affordable price!

**Thursday Afternoon
Preconference Workshops
3:15 pm to 4:45 pm**

Preconference Workshops

3:15 p.m.-4:45 p.m.

Preregistration required by October 30 (\$5.00/person). No onsite registration for workshops.
